### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Shulong Li on 5/10/06.

The application has been amended as follows:

Claim 10, line 4 after "substantially cylindrical clip members having" insert

--- a continuous arcuate shape with an opening on one end for receiving a grill rod and having a---

The following is an examiner's statement of reasons for allowance:

In the previous action the examiner indicated that claim 9 would be allowable if rewritten in independent form. The applicant amended claim 9 so that it is in independent form, therefore claim 9 is allowed.

Claim 10, includes the limitations of a continuous arcuate clip member with an opening for receiving a grill rod, wherein once engaged with the rod, the clip member will be in contact with the top portion and both sides of the rod. The claim further states that the clip members are attached to screws that are adjustably secured in a slot.

While Losenno ('773) and Bisping ('285) teach arcuate shaped clip members for holding rod type elements, the clip members are not continuously arcuate. Additionally, if a grill rod were

inserted into the clip member, the clip member would not contact both the top portion and both sides of the grill rod. Therefore, the claim overcomes the prior art and it allowed.

Claims 16-17 were previously allowed.

For the reasons listed above, the application is free from the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shay L. Balsis whose telephone number is 571-272-1268. The examiner can normally be reached on 7:30-5:00 M-Th, alternating F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gladys Corcoran can be reached on 571-272-1214. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
